

Letter of appreciation from the Ubuntu-project to our beloved friends in Norway and Denmark.

Queenstown, 3.10.2005

As we have been struggling here in Queenstown running After School Care Projects without financial support, it has been a pleasure, when we meet this great lady Nina Tanggaard, who came here through PASCaP. She supported us by offering to funds from you people! We know this soap-business will reduce the poverty and unemployment in our communities. It is in our great honor to thank and appreciate all of you for what you have done for us! We hope that we will keep on working together with you with the Ubuntu-project. May the Almighty God bless all of you.

From your beloved friends in Queenstown:
